

Medical Mutual has partnered with major health systems across Ohio to create the MedFlex network. This network provides access to high-quality, affordable healthcare in more than 70 counties, covering 80 percent of the state. With provider locations in major cities, small towns and rural areas, MedFlex is designed to provide you with access to healthcare where you live, work and play.

The MedFlex network not only includes convenient locations, it is also made up of providers who coordinate patient care through all stages of life. Additionally, many providers are incentivized based on patient health outcomes, efficiency and quality of care. Between these two approaches, you can experience improved health and cost savings.

## Access All the Providers You Need in One Network

Whether you are looking for healthcare providers in a specific city or across the state, MedFlex has the doctors and hospitals you want and need. The map below highlights MedFlex primary service areas where health systems, hospitals and providers are located. This map also includes counties that border these primary service areas, which may be eligible for coverage.

### Legend

- Primary service areas
- Counties that border primary service areas and may be eligible for coverage

Note: Please contact Medical Mutual's Customer Care team to confirm coverage in your county.

### Health Systems, Hospitals and Providers in the MedFlex™ Network?

This network also includes specialized pediatric care and services at the following world-class children's hospitals for members up to age 20:

- Akron Children's Hospital
- Cincinnati Children's Hospital Medical Center
- Dayton Children's Hospital
- Nationwide Children's Hospital
- Rainbow Babies & Children's (University Hospitals)

## Benefits Overview

MedFlex provides complete benefits, excellent care and cost control measures to help manage premiums and out-of-pocket costs. This network is a non-gatekeeper HMO, which means you're not required to coordinate care through a primary care physician. You can access specialists directly and save money. However, it is requested that members select a primary care physician because regular health screenings can lead to better health outcomes and reduced costs.

## Pharmacy Benefits

The pharmacy benefits include member savings through generic and preferred brand name prescription drug programs and a comprehensive pharmacy network including Walgreens and Discount Drug Mart.

## Emergency Services

Emergencies requiring immediate medical attention are always covered at any hospital regardless of network status. However, there is no emergency room coverage for non-emergency care.

## Nurse Line

MedFlex includes access to Nurse Line, where a registered nurse is available to answer health-related questions 24 hours a day, 7 days a week. The Nurse Line is available by phone or through the member website, My Health Plan. Members and dependents can use Nurse Line to determine what type of care is needed.

## Find a Provider<sup>1</sup>

Visit MedMutual.com and scroll down to our Find a Doctor tool and select Find Now. In Just Looking Around, click the year you would like to search in. From there, select group insurance and then MedFlex. Fill in any other necessary information and load results. Use this website to find in-network doctors, hospitals and facilities, along with helpful information for each.

**For more information about member benefits in the MedFlex Network, please contact your Human Resources department. If you are an enrolled member, please contact Medical Mutual's Customer Care team at the phone number on your member ID card.**

---

<sup>1</sup> Please verify your provider is in network before making an appointment.
